

1NCE COUNTRY COVERAGE

AND SUPPORTED BEARER

As of January 2024

1NCE's Chip Cards allow a smooth change of the supported mobile transmission standards (Bearer) 2G, 3G, 4G, LTE-M and NB-IoT. Each card transmits and receives on all supported bearers, provided that the wireless technologies are locally available and the mobile communication module used also supports the relevant wireless technologies.

1NCE's M2M/IoT mobile communications services currently support the following mobile transmission standards in the covered footprint (as of January 2024):

COVERAGE OF THE 1NCE IOT FLAT RATE CHINA+

The product "1NCE IoT Flat Rate China+" has the following country and bearer coverage that differentiates from the standard 1NCE IoT Flat Rate:

Country / Region / Market	2G	3G	4G	LTE-M	NB-IoT
China (Mainland)			✓		✓
Hongkong	✓	✓	✓		
Macao			✓		
Taiwan		✓	✓	✓	

The country coverage and available network technologies in these selected countries, regions and markets therefore differ from the standard 1NCE IoT Flat Rate. All other countries and network technologies remain available when using the 1NCE IoT Flat Rate China+.

This document is for information purposes only. The current and binding status of the country coverage can be found in the current version of the service description.
